

## GREAT FORCES LANDED

British and French Seem About on Point of Launching Great Attack on the Turks on the Gallipoli Peninsula—Turkish Batteries on Asiatic Side Are Silenced

## STEADY PROGRESS IS NOW REPORTED

Germany Likely to Get into Open Rupture with Balkan States as Result of an Insistent Demand for a Right of Way to Aid the Beleaguered Turks

The landing of additional large bodies of British and French troops on the Gallipoli peninsula is reported from Mytilene. Paris hears that the allied fleet has silenced the Turkish batteries on the Asiatic coast in the Dardanelles, which were able to reach the camps of the expeditionary force with their fire and that steady progress is being made against the Turks on the peninsula. The current official statement from Constantinople on the Dardanelles operations mentions only artillery firing, through which the Turks claim to have driven off the hostile warships and to have broken up the infantry formations.

The Teutonic demands that supplies for the Turks be allowed to pass through Rumania and various moves made supposedly in connection with these demands attract attention to the Balkan situation. A partial mobilization of Rumanian troops has been ordered to meet the concentration of Austrian forces in the Transylvania, according to reports from Athens. It is understood in Sofia that Germany has demanded permission for passage of Austro-German troops through Rumanian territory and the delivery by Rumania of various supplies engaged, amounting to \$40,000,000. The tenseness of the Balkan situation is reported in Athens to be bringing Greece, Rumania and Serbia to consider a joint action in case of Austro-German attack on Rumania.

## GERMAN SUBMARINE WAS TORPEDOED

Turks Are Reported To Be Destroying Towns and Retiring Into the Interior in Expectation of Fall of Dardanelles.

Paris, Sept. 14.—A German submarine has been torpedoed and sunk by the French torpedo boat patrol between Mytilene and Tenedos, says an Athens dispatch to The Journal of London. The town of Phocaea, Asia Minor, 25 miles northwest of Smyrna, is reported in flames, according to a Reuter dispatch from Athens, which says it is inferred that the Turks are destroying the coast towns and retiring into the interior in expectation of the fall of the Dardanelles.

## AEROPLANE DRIVEN OFF

After It Had Dropped Bombs on Kentish Coast.

London, Sept. 14.—An official statement issued by the press bureau last night said: "A hostile aeroplane visited the Kentish coast this afternoon and dropped some bombs, which resulted in a house being seriously damaged and four persons being injured. The aeroplane was chased off by two naval aeroplanes."

The numerous attacks on London by Zeppelin dirigibles have impelled the British government to appoint Admiral Sir Percy M. Scott, formerly director of naval gunnery practice, to assume charge of the defenses of London against air raids.

## DIED IN MIDDLEBURY.

Judge James F. McLaughlin of New York City, a Summer Guest.

Middlebury, Sept. 14.—Judge James F. McLaughlin of Jamaica, Long Island, a municipal judge of New York City, died about six o'clock last night at the Addison after a brief illness with a complication of troubles. He was 67 years of age. He had been here earlier in the summer and had returned for another stay. He is survived by three brothers and one sister, his wife having died some years ago. His brother-in-law, John L. Conant, announced the remains last night to New York. The funeral will be held Wednesday at St. Mary's Catholic church at Jamaica, L. I.

## GERMANS WIN BIG POINT.

Set Foot on Rovno-Petrograd Railroad Line.

London, Sept. 14.—By one of those battering offensives which, although costly in men and munitions, have invariably been successful, Field Marshal Von Hindenburg's army has at last set foot on the Rovno-Petrograd railway between Vilna and Pinsk. The Austro-German forces have been striving to gain this railway since the fall of the Polish fortresses.

The offensive, which began toward the end of last week, was carried on from three directions upon Pinsk and the railway on either side of the town, while further south the invaders advanced toward Vilna. The Russians before superior forces supplied with the usual mass of artillery were Sunday forced back to the lake district which the railway penetrates and are now making a stand there.

Simultaneously, the Germans pushed their way eastward toward Slonim and Pinsk, both of which are on roads which join the main railway line, while the Austrians, with whom there are many German units, are fighting hard to reach Rovno, the southern terminus of the line. With this railway partly in the hands of the Germans it is probable that the Russians will be compelled to make a further retirement, although their offensive in Gallipoli, which continues, might save them by compelling the Germans to send reinforcements to this region.

There is now no doubt of Russian success in this district, as subsequent to the Austrian admission of their retirement the Germans last night announced that after repulsing Russian attacks they occupied "a favorable position situated some kilometers west of our former position."

The conditions under which the troops are fighting in the marshy country in the center and on the southern end of the line are described by German correspondents as most terrible. The country is virtually all under water through which the Austro-Germans have to advance against well prepared Russian positions. The eastern bank of the Sereth from which the Russians are delivering their counterattacks is a veritable fortress from which the Russians emerge every time their opponents approach, taking heavy toll of them in killed, wounded and prisoners. According to the Russian counts nearly 30,000 prisoners have been taken in the fighting along this river.

## NEW INSURRECTION MOVEMENT STARTS

Martial Law Has Been Proclaimed in Northern Portugal To Suppress Monarchical Movement.

Paris, Sept. 14.—A new insurrectionary movement has broken out, not only in Lisbon, but in the principal provincial cities of Portugal, says a Madrid dispatch to The Journal. A dispatch from the Portuguese frontier Sept. 2 reported an insurrectionary movement at Braga and Cascais. Martial law was proclaimed in northern Portugal Aug. 29 to suppress the monarchical movement.

## WANT BILLION ON BONDS.

Great Britain and France Propose to Put Up No Collateral.

New York, Sept. 14.—The present plan of the joint Anglo-French financial commission, it was reported last night, is to borrow \$1,000,000,000 in the United States on straight British and French government bonds, without any collateral whatever. If this vast sum is obtained, it was said, it is to be spent, to the last penny, in the United States in payment of wheat, cotton, meat and other commodity shipments, including munitions of war. It will, therefore, in the opinion of financial authorities, be classified as a commercial loan.

Whether the neutrality of the United States would be questioned in case the lenders financing the mammoth loan should accept straight British and French notes as their security has been given serious consideration. It was said that the financiers familiar with the plan had every reason to believe that the Washington government would not interfere.

The foregoing was the unanimous opinion of many of the scores of prominent bankers from New York and the chief cities of the country who have visited the commission at its headquarters here during the three days of its stay in this city. As to its correctness, the members of the commission declined positively to comment. All that the commission, created by authority of the state, was voiced by Lord Reading, its chairman, who received newspaper men last night for the first time.

"We are not in a position to make a statement at the present time," Lord Reading said, "because we are studying the conditions in New York and elsewhere in relation to American exchange in London and Paris. We have received a very considerable number of persons, prominent bankers and other gentlemen who are interested in the stability of exchange."

"The one thing that is very striking about it is that everybody is agreed, as one would expect, on the great importance to be attributed to regulating the exchange so as to provide more stable conditions than has been the case recently."

"The sudden and considerable drop in the exchange, naturally disturbs the commercial relations of the countries. 'There is a consensus of opinion that it is extremely desirable that some steps be made by which stability of this exchange can be secured. 'That generally reflects our view on the situation.'"

## BRITISH CASUALTIES.

Total Up to August 31 was 321,583 Men.

London, Sept. 14.—An official announcement was made today in the house of commons that the total British casualties up to Aug. 31 were 321,583 officers and men killed, wounded or missing.

## ARBITRATION NOT AN ISSUE

American Government Not Willing to Discuss It with Germany

## SINKING OF ARABIC HAS OTHER ISSUES

The United States Demands Reparation for American Lives Lost

Washington, D. C., Sept. 14.—The American government is not yet willing to discuss with Germany the question of arbitration in connection with the sinking of the Arabic. It was stated today by high government officials that the question of arbitration is not an issue.

It was explained authoritatively that what the American government first wants is a disavowal of the attack on the Arabic. Afterward, it was indicated, the United States may be willing to arbitrate the question of indemnity. While officials here realize that the situation is grave, they are hopeful that when Berlin learns the facts in possession of the state department, the act will be disavowed.

## SUBMITS ARABIC EVIDENCE.

United States Lays the Case Before German Government.

Washington, D. C., Sept. 14.—Conferees yesterday between President Wilson and Secretary Lansing and between Secretary Lansing and Count von Bernstorff, the German ambassador, brought the situation growing out of German submarine activities to the following status:

1. The German ambassador has been furnished with the evidence of officers and survivors of the Arabic, all agreeing that the liner was proceeding peacefully when torpedoed without warning, and has been advised that the United States desires a disavowal of the attack and reparation for the American lives lost.

2. The evidence will be sent by Count von Bernstorff to the Berlin foreign office, to which it has not been available before and probably ten days will elapse before Berlin can be heard from. In some quarters it is believed possible that the foreign office upon examining the evidence may change its position and disavow the action of the submarine commander, who it was claimed in the last note sent the liner because he thought she was about to attack him.

3. The United States has at hand information on the case as it now stands and is ready to decide upon its course, but action may be delayed until Count von Bernstorff has had time to exchange communication with his government.

4. While the United States will not consent to arbitration of a principle or of a question involving the safety of American lives, it has accepted Germany's assurances that peaceful liners will not be torpedoed without warning, and if Germany desires to arbitrate the amount of indemnity the question of whether the Arabic actually attempted to attack the submarine or whether her action justified the submarine commander in believing he was about to be attacked, that probably would be agreed to.

## DUMBA ASKS FOR HIS OWN RECALL

Announces That He Asked Austrian Government for Leave of Absence So He Might Return Personally.

Lenox, Mass., Sept. 14.—The Austro-Hungarian ambassador, Dr. Dumba, today announced that he had requested his foreign office to recall him on a leave of absence in order that he might make a personal report on the situation in the United States, which resulted in the request by the United States for his recall.

Dr. Dumba said he could not tell exactly when he would leave the country, but that preparations for steamship accommodations are now being made. In view of the "situation" he said he probably would be torn between the statement which he had in mind to give the American press but would, however, have something to say through the Austrian press when he reached Vienna.

## BOSTON HERALD CHANGES HANDS

It Will Be Continued With The Traveler Under Same Policy and With Robert Lincoln O'Brien in Charge.

Boston, Sept. 14.—The property of the Boston Herald, incorporated publisher of The Herald and The Traveler, was sold at auction today for \$1,800,000 to F. H. Sullivan of New York representing J. P. Morgan & Co. and other security holders. Several weeks ago advertisements announced that the property was to be sold because of a default of interest on the bonds.

Sullivan acquired the property for the Boston Publishing Co., a new corporation, to continue the papers. It is announced that the editorial and news policy of the papers is to continue under the direction of Robert Lincoln O'Brien and the operating staff will not be changed.

## U. S. DEPARTMENT TO HELP VERMONT

Will Contribute Financially to Support of Vermont Bureau of Markets—Vermont First Northern State to Win This Support.

St. Albans, Sept. 14.—State Commissioner of Agriculture Elbert S. Brigham returned today from Washington, D. C., where he conferred with the head of the office of markets in the national department of agriculture regarding the bureau of markets in the Vermont department of agriculture. As the result of his efforts, a tentative arrangement has been made whereby the office of markets of the national department will contribute financially to the support of the Vermont bureau for the present fiscal year.

Vermont is the first northern state that has successfully appealed to Washington for such assistance. W. A. Austin of Green Bay, Wis., who has been employed for several months in the Vermont bureau of markets, has resigned, and the resignation has been accepted, to take effect on Oct. 1.

## NORTHFIELD HOTEL SOLD.

Purchaser Is E. M. Fifield of Sutton Who Turns in a Large Farm.

Northfield, Sept. 14.—The Northfield house, one of the best known hostleries in Washington county, was sold last night by Fred K. Sawyer to E. M. Fifield of Sutton, the deal involving about \$20,000 and being made through the Calcedonia Real Estate Co. of St. Johnsbury, whose members are Scott D. Welch and Samuel J. Matson, formerly of Northfield.

Mr. Sawyer takes in part payment a 375-acre farm in Sutton, valued at \$11,000 and the balance in cash. Mr. Sawyer, who has owned the hotel for three years, does not intend to operate the farm himself but will hold for investment purposes. He plans to go on the road as traveling salesman. He will continue to make his home in Northfield.

## RANSOM TRAIN WAS HELD UP BY VILLA

Who Claimed That Paying of Money Would Only Serve to Encourage Brigandage in Mexico.

Little Rock, Ark., Sept. 14.—Chris Ledwidge, a local capitalist, last night received a message that his brother, Edward Ledwidge of El Paso, who is held captive by Mexican bandits in Chihuahua, was to be shot at noon today.

Ledwidge's employers in El Paso sent a special train, bearing \$10,000 in gold, to ransom him, but it is said the train was held up by orders from General Villa, who declared that to pay ransom would only encourage the brigandage, and it was better that Ledwidge be killed than that every American who traveled should be held up. Villa said he would attempt the rescue himself.

## FOUR BARN BURNED.

Together with Great Quantity of Produce and Tools.

Ferrisburg, Sept. 14.—Four barns on the B. T. Field farm, owned by Thaddeus M. Field, were totally destroyed by fire early yesterday morning. Nearly 500 bushels of grain, 40 tons of hay, all of the farm implements and three calves were burned. The cause of the fire is unknown. So far as known no one had been in the barns since Mr. Field attended to his evening's work about 7 o'clock Sunday night.

The fire was discovered about 3 o'clock and an alarm given in Vergennes. A chemical engine and several firemen responded, but the fire was beyond control. The buildings were partially insured.

## NOT A LIFE LOST AND NONE INJURED

During Fire on Sant' Anna—Some Officials Think Fire Was Due to Time Bomb.

New York, Sept. 14.—No lives were lost and none was injured during the fire on the Sant' Anna, bound for Italian ports with 1,800 reservists, according to a wireless message to agents of the Fabre line today. The cause of the fire nor the extent of the damage was not indicated. Some officials of the line are inclined to believe it was caused by a time bomb.

## HAD SKULL FRACTURED.

Pattern Maker at Bridgeport Struck by a Rock.

Bridgeport, Conn., Sept. 14.—A disturbance among the strikers and employees of the Crane Valve company last night grew to such proportions that a squad of police was rushed to the factory to disperse the crowd. One pattern maker had his skull fractured by a stone. The police arrested his alleged assailant after a chase.

The strike has been in progress for three weeks. Yesterday a large number of the men returned to work which caused much bitterness among the strikers.

## 9TH STATE FAIR IN FULL SWING

Opened This Morning with Every Department Ready

## MORGAN EXHIBITION IS BEST YET SHOWN

On Wednesday, Montpelier Will Send a Big Delegation

White River Junction, Sept. 14.—The Vermont state fair began its ninth annual exhibition on the state fair-grounds this morning. Promptly at 7 o'clock the gates were opened to the public and at that moment the machinery of the organization began turning. Every department of the fair is in full swing today.

A finer exhibition of Morgan horses has never been seen anywhere than is shown in this department. Judging of Morgans began at 9 o'clock and will continue throughout the day. It is quite apparent that many new breeders of Morgans are coming to the front. The names of many new exhibitors are on the list and the young stock they are showing is of the highest quality.

The new public service building erected by the money contributed by the citizens of the town of Hartford was presented to the state by James A. Stacey of this town and accepted by James B. Estee, president of the state fair commission, in a very gracious speech. With this new structure and the new administration building the grounds present a fresh and up-to-date appearance.

There are three trotting events on the card for this afternoon, a 2:19 trot, a 2:20 pace and a 2:25 trot stake.

The Montpelier Board of Trade has organized for a trip to the fair. Pres. Estee received word from the capital city last night that 40 cars would leave for the fair Wednesday morning. This will mean that over 200 citizens of Montpelier will make the trip to the fair by auto as an organized body. Plans have been made for the registration of all visitors who visit the fair as an organization and it is hoped that every city and village having a board of trade or similar organization will visit the fair in large numbers.

The cities and towns in New Hampshire north of Concord will be well represented at the fair on Wednesday. All the schools will close and the manufacturing plants will shut down to permit the children and the employees to visit the fair on this day. This has been customary in New Hampshire for some seasons, the school authorities considering one day at the Vermont state fair of sufficient educational value to give the pupils a holiday, and the employers feel that it is better to excuse the full force than to have it demoralized with but a few to work the machines.

Special pains have been taken to provide food for the visitors. The large restaurants are capable of seating 1,000 persons at a time and with competent service this means the feeding of many thousands hourly. The regular visitor to the state fair this year will notice many improvements this year—changes and additions for the comfort of patrons provided by the commission.

In the cattle department, among the Jerseys, Quebec Fells farms show a herd of 28 head, George T. Chaffee of Rutland 19 head, and H. M. ## MANY CASES FOR TRIAL

But an Extra Long Term of Court Is Not Loked For

## SEVERAL ENTRIES OF SETTLEMENT

On Jury Calendar 51 Out of 71 Cases Stand for Trial

When the September term of Washington county court convened at the courthouse in Montpelier today, it was found that the 71 cases on the jury calendar were set for trial, the others being settled or continued, while on the court calendar of 73 cases several were entered as settled and discontinued and others as continued. The large number of cases for trial would seem to indicate a long term of court, but followers of court procedure were not inclined to call the list of cases very heavy.

Judge E. L. Waterman of Brattleboro is presiding, and Assistant Judges Dale and Dana were present when Sheriff Tracy read the proclamation at 10 o'clock, and Rev. Louis C. Carson, pastor of the Church of the Messiah in Montpelier, offered prayer.

When the jury calendar was gone over, these four cases were entered as settled: Urban C. Whitford vs. Minnie Kenfield; State of Vermont vs. T. J. Heaphy, boundary dispute; Alfred Turton vs. W. Shalton Swallow & Co.; Mario Zancioni vs. Alice V. Beckley of Barre. In the last-named case, Charles Zancioni was appointed guardian of the plaintiff, who is a minor. Judgment for plaintiff, by default, was entered in the case of Cooley-Wright Manufacturing Co. vs. Eastern Fruit & Nut Orchard Co. The following cases on the jury calendar were reported continued: E. D. Bartlett vs. Hinman Bros., Richard Monyhe vs. Romeo Boffell, Lovell & Hall vs. W. E. Jackson, Harris Yett, trustee, Rutland Fire Clay Co. vs. W. E. Jackson, Harris Yett, trustee, Jones Bros. Co. vs. A. W. Graham.

Motions for continuance were made in the following cases on the jury calendar: G. W. Murray vs. George L. Morris, Fred I. Dodson, for use and benefit of Ida L. Fox, vs. Union Mutual Fire Insurance Co., Mrs. Fred L. Dodson vs. Vermont Mutual Fire Insurance company, George Milne vs. E. R. Fletcher, Nellie J. Roben vs. E. M. Roscoe and others, motion to dismiss as to the first-named defendant, Howard B. Arbuckle vs. Clarence E. Foley, Fanny Oliva vs. R. L. McIntyre et al., and Oliva vs. R. L. McIntyre et al. The first case set for trial was Annie W. Stanyan vs. Security Mutual Life Insurance company, but the defendant made a motion for a continuance of the case.

On the court calendar, the following cases were entered as settled: F. H. Tracy vs. Joseph Canales, Emma L. Temple vs. John M. Sullivan, estate of Martha A. Town vs. estate of James Demeritt, with N. L. Demeritt as administrator; Morris Kitzner vs. Louis Gould.

On the same calendar the following cases were continued: Nellie J. Roben vs. R. A. Hoar, National Bank of Barre vs. Fayette Outler, Norman McDonald vs. Cutler, McDonald & Co.

Default was entered in the suit of Plumley & Plumley vs. E. B. Ellis Granite company, with the C. V. R. R., Bethel Granite R. R. company, and Woodbury Granite company as trustees, and in the suit of the same plaintiffs against the Northfield National bank with the above-named trustees and the National White River bank in addition. Judgment was entered as to the principal defendant, and it was agreed to refer to a commission the question as to the liability of the trustees.
